

INTRODUCTION TO PROJECT

1. Introduction

The Central Bureau of Investigation (CBI), functioning under Department of Personnel & Training, Ministry of Personnel, Pension & Public Grievances, Government of India, is the premier investigating police agency in India.

This bid is being floated to select the most appropriate vendor to deploy Modular UPS Solution for critical IT Infrastructure at Head Quarters building of Central Bureau of Investigation as per the requirements stipulated in the bid document.

2. Existing Setup

CBI Headquarter Building consists of 11 Floors. The building is divided into 2 Wings A and B each having LV Rooms where access switches are hosted. Server Room where Core Network elements, Security devices and Servers are deployed and upcoming Security Operations Centre and envisaged Network Operations Centre are located on the 6th Floor. Forensic Lab (NETRA) is on 7th Floor of the Building. Network Equipment Room is located on the Ground Floor.

Currently, 20 KVA UPS is catering all the LV rooms, NETRA Lab is catered by 5 KVA UPS and Server Room UPS is being shared with user area of 6th Floor. NOC, SOC and Network Equipment Room are under implementation/conceptualization. All these facilities are managing critical IT Equipment and are required to be powered by dedicated uninterrupted power system.

3. UPS Solution

The bidders are invited for site survey to understand the existing building architecture and provide a turn-key solution for, Design, Supply, Installation and Commissioning of UPS Solution with Isolated Transformer, Precision Air Conditioning along with required Electrical works.
